Computer Science | Srinivas University India
CGPA: 8.1 / 10.0

Pre-University Course 2015 - 2017
Computer Science | MGM College India
Percentage: 75%

WORK EXPERIENCE

FAHAD IBRAHIM AL MUHAWWIS REAL ESTATE DEVELOPMENT AND INVESTMENT COMPANY - Riyadh, Saudi Arabia 2024 - PRESENT

Full Stack Software Developer

- Developed a full-featured real estate web and mobile platform using Laravel (PHP) backend, React (web), and Flutter (mobile) frontend.
- Integrated Saudi REGA (Real Estate General Authority) compliance services including Advertisement Validator and Platform Compliance.
- Built a three-step auction registration flow: Nafath ID verification, bid deposit via wallet or SADAD (EDATT), and bidding profile document upload.
- Taqnyat SMS authentication system for secure mobile and web login.
- Implemented SADAD invoice payment integration via EDATT API for auction deposits and wallet recharges, including invoice creation, webhook handling, and status tracking.
- Designed and managed a wallet system with support for transactions, withdrawals (with IBAN verification), and admin approvals.
- Built real-time bid update functionality using Pusher for both web and app.
- Developed admin dashboard components for managing auctions, attendees, wallet transactions, SADAD invoices, and withdrawal requests.
- Integrated property listings into the mobile app using REST API and built advanced property search/filter features.
- Implemented responsive and RTL-compatible UI/UX using Tailwind CSS, Bootstrap, and custom modal components.

CERTIFICATES

- React - The Complete Guide 2025
- Web Development Masterclass - Online Certification Course JavaScript for beginners
- Pluralsight - C++ Fundamentals Including C++ 17
- Hands On - HTML5 & CSS3
- Python Complete Course For Python Beginners

Omnion Premedia - Udupi, India 2021 - 2024

Software Developer

- Web-Based Task Management Application: Designed and implemented a user-friendly interface that enables users to create, assign, and track tasks, set deadlines, and add comments. Developed using HTML, CSS, JavaScript, and PHP.
- Image Proofing Web Application: Created an image proofing web application that allows clients to review, select, and approve images for projects. Developed using HTML, CSS, JavaScript, PHP, and integrated Photoshop scripting for enhanced functionality.
- Content Management System (CMS): Developed a content management system that empowers users to create, edit, and manage website content seamlessly. Utilized HTML, CSS, JavaScript, and PHP for efficient content handling.
- C++ User Interface (UI) with ImGui on MAC OS: Created user interfaces using ImGui for both an art-work editor and a job management system. Photoshop Plugins and Extensions: Developed C++ plugins and extensions for Adobe Photoshop using sample SDKs to enhance Photoshop functionality.
- CRUD Application Using Django/Python: Built a Create, Read, Update, Delete (CRUD) application using Django and Python for efficient data management.
- Python Automation for Photoshop: Implemented Python automation scripts for Photoshop to retrieve data and perform actions on Photoshop files.
- Bookkeeping Application: Designed and developed a bookkeeping application that manages invoices, accounts, profit and loss statements, and deposits. Utilized HTML5, CSS3, JavaScript, and PHP for the frontend and retrieved and updated data from Python using access tokens.

CLOSING STATEMENT

I hope you will take into consideration my previous experiences and my proven ability to successfully complete tasks assigned to me. I can assure you of my strong personal attributes, including unwavering dedication to the job, the capacity to maintain positive relationships with both superiors and colleagues, and my effectiveness in performing well under pressure, whether independently or as part of a team.

Sincerely,
Mohammed Sahil
